

Your PC Doctor celebrates one year anniversary

Graham's newest computer repair facility holds one-year anniversary celebration with snacks and door prize drawings

Graham, TX, September 14, 2008 –

Your PC Doctor celebrated one year doing business in Graham this past weekend.

Dozens of customers and friends stopped by Saturday and Sunday for muffins, coffee and sodas and talk with their favorite computer tech along with a chance to register for a drawing for two door prizes.

Two lucky winners on Sunday were Schulyer Nantz, of Graham, and Kim King, of Bryson. Nantz took home a 120 gigabyte portable USB hard drive and King drew the 8-inch digital photo frame.

“We had a great turnout,” said owner, James Clement. “It was nice to see old friends drop by and wish us well on our anniversary. We are thankful for all of our customers and the referrals they provide that allows our business to continue to flourish.”

Your PC Doctor is only open on weekends, but since opening the door last year at the “Old Town” Fourth Street location business has grown each month, fueled by customer referrals and recommendations.

“Since we are only open on Saturday and Sunday,” Clement said. “We get many, many calls for service during the week we can’t address over the phone. So, customers usually make the drive to Wichita Falls to get their PC fixed.”

“It’s a shame, too,” said return customer David Bryan, “because I know that no one will provide the level of service or the attention to detail that James does.”

Offering customers big-city technical experience at small-town prices, Your PC Doctor is a computer-repair facility located at 1039 Fourth St. The local business specializes in same day service and cuts through “geek speak” to provide customers with easy to understand solutions. Owner and manager, Clement has garnered nearly 20 years of hands-on experience supporting enterprise-class systems for international corporations including NTT Corporation of Japan and their US-based subsidiary NTTA.
